

Fell Dyke Community Primary School

Policy for Inclusion and Equality of Opportunity

Introduction

- This policy is intended to promote equality of opportunity and inclusion in all aspects of school life. It is relevant for pupils, staff, parents, carers, governors and visitors to the school.
- The school regards the issues of inclusion and equality of opportunity as a central tenet and this is reflected in the school aims and the work that is carried out here.
- It is recognised that discrimination, for any reason is damaging to the person affected and is a waste of individual potential.
- It is important to challenge discrimination. Not to do so reinforces the views held by those who discriminate.
- It is important to recognise that the school, its organisation and procedures can discriminate institutionally as well as individuals within the institution and this area also needs to be tackled.
- This policy should be read in conjunction with school core purpose and foundation statements, and all other school policies.

Inclusion

We are committed to providing effective learning opportunities for all pupils and apply the three principles for inclusion to planning and teaching. Suitable learning challenges will be set for all pupils with the aim of maximizing achievement for all pupils at an appropriate level for each individual. Teachers will respond appropriately to pupils' diverse learning needs and be aware of the needs of differing genders, special educational needs, disability, as well as different cultural, social and ethnic backgrounds. We are committed to the principle of equality of opportunity and this will be reflected in the curriculum offered to pupils and in the conduct of staff and pupils.

RRSA

At Fell Dyke Community Primary school, we are committed to promoting a rights respecting ethos based on the Convention on the Rights of the Child in all aspects of school life and the best interests of the child is at the heart of our policy and practice. The articles set out in the CRC are known to all children and adults in the school and we encourage rights respecting language and behaviour at all times. The children are taught that we all have rights and responsibilities, in our school community, locally and globally and the difference between wants and needs. We recognise that children have the right to say what they think about matters affecting them and to have their views taken seriously and we encourage them to play an active role in their own learning and to speak out and act for the rights of all to be respected locally and globally.

Role of Governors

- Governors determine, support, monitor and review school policies. Through these procedures they promote social inclusion and equality of opportunity. They apply the aims of this policy to the work they do on behalf of the school.
